increase of Police and their Special allowances is requested

As regards the measures to be adopted to close the Jatre at Devarrinda in Irnadgere Taluk (referred to in para 9) to all outsiders owing to the outbreak of cholera in South Canara necessary orders have been issued to the Amildar of Irnadgere

The Assistant Surgeon, Kadur District has been asked to obtain and send a supply of medical medicines and disinfectants for the use of the Hospital Assistant stationed at Bhund Ghat

for Deputy Commissioner
Kadur District

enclosure to dl 1

Memo:

Three cases of Cholera imported from South Canara into the Village of Pattadur near Barakal (Mudigere Taluk) having come to light on the 16th February 1898, the Civil Surgeon brought to the notice of the Deputy Commr that Cholera was prevailing in South Canara and suggested that steps might be taken to open a Quarrantine camp on the Charmadi Ghat with a view to prevent the spread of the Epidemic into the District.

2. After due enquiry it was decided on the 19th February/98 to open a Police outpost at Kolgi-har to note and take charge of any immigrants who may appear to be ill either of Cholera or of fever and to place them under treatment and observation in a shed to be provided for the purpose. Subsequently i.e. on the 25th February/98

An Asstt Asstt.

arrangements detailed by the Superintendent of Police are well conceived and have been planned with Commendable promptitude after a visit to the Spot

2- The latest information received from the Mangalore Memorial Enclosures (1) forwarded by the Collector

3. Nevertheless the Deputy Commr after telegraphic order of the 24th with Guards mentioned and many Peons, deemed it expedient to put in force the precautionary measures described by the Asst Surgeon. Cholera although has not been prevailed in portion of S Canara

4 Accordingly approve of the detailed measures proposed for quarantine & observation Sheds with Brand Fowl with 150 mile near Kolgi. Fowl with the opening of outposts at the other Ghats on the Mudigere Railway Mentioned by the Asst Surgeon

5 The arrangements proposed for the Kappu Taking at Bolgar & Nemmar are

an Hospital Assistant was specially detailed on Cholera preventive duty at Kotgiha

3 This arrangement had been in force when the Plague Commissioners telegram conveying news of the outbreak of Plague in Mangalore was received by the Deputy Commr on the evening of the 27th February 1898. The telegram was as follows:

"Plague reported in Mangalore introduce inspection and observation rules as per Cir No 7 and establish Outpost at Kotgihar or Bundghat."

4 Although what was required had been anticipated to some extent by the measure already adopted for the prevention of Cholera, yet, to adapt the arrangements to the requirements of the Rules and regulations on the subject of Plague Prevention, I proceed to Kotgihar on the 28th Feb/98 as personally directed by the Deputy Commissioner

5. This morning I inspected the several places between Kotgihar and the Bundghat

with marks approved

6- The patrol at Devarmakki (Mangalore Coorg) is need not. Mark is entirely prohibited X the orders may be issued closing the Ghat for traffic from South Canara - Peons should be stopped on the Ghats

7 If in no means the above measures will suffice. that means of the Guard should be forwarded to the Plague Officer with a request for Sanction and increase in required number of peons and Special allowances may deal with

8 If the Guard Peons be necessary to move the Quarantine Station Lower down to Bundghat - as far as 190 Mile - Mr Can easily be arranged

10 The Asst Surgeon should be directed to obtain a supply of all needful medicines & Establishment for the use of the Hospital and in Bundghat

X X Inspection Report may also be submitted

3/3/98

to select a suitable site for erecting isolation and observation sheds I was accompanied during my inspection by the Hospital Assistant and the Police Inspector Kotgihar is ill-suited for the purpose as between Bhundghat and Kotgihar there are several ghat-passes and foot paths for the passengers from South Canara to escape unobserved into the Coffee Estates around Jawali and Balur

6 The inspection and observation to be effective must be held on the other side of the Bundghat Tollgate But a site sufficiently spacious and convenient for the purpose of putting up isolation sheds and establishing an observation camp on any extended scale cannot be found within three miles of the Toll gate

7. At the place called Somanahalli near the 190th mile stone on the Mangalore Road there is a large bit of open ground available at a convenient distance from a running stream where the observation camp may be located

located This will have
to be fixed upon only after
the necessity is established
for opening a quarrantine
camp on large scale
and of maintaining it for
any length of time

8. For the present however
and until the Plague assumes
an Epidemic form in South
Canara, a small camp may
be temporarily established on
the small but level ground
available on the hill-slope
near the 186th mile-stone - not
far from the Toll-gate The
Hospital Assistant also approves
of this site as it overlooks
all the ghat-passes leading
into Melbung or Mägam
(Mudgere Taluk) between
Kolgudär and the Toll-gate
There are two shops close by
and any necessary supplies
may be easily got from them
The owners of these shops
Palli Krumni Beri and Laksh
Haramappa have also expressed
their willingness to keep a stock
of provisions and to sell
them for a fair price to such
passengers

passengers as nought be detained by the Inspecting Officer Drinking water also can be had within 200 Yards of the site The site is large enough for putting up isolation Sheds 6 feet apart each measuring 10 feet Square Lower down the slope and close to the pond is another bit of level ground where a temporary line can be put up for accommodating 6 policemen The Hospital Assistant can also be provided with a Separate Shed there

9. The Patel of Jarwe Village has been collecting materials to build Sheds as originally proposed near Kolgaon the has been instructed to get the materials removed to the place selected near the 186th milestone and to have the necessary Sheds built there according to the design given to him Arrangements are in progress to get the sheds ready within three days These arrangements may stand till the demand

Should arise

should arise for extending the operations in which case the site near the 190th mile-stone may be conveniently chosen. To be prepared for the eventualities materials for the erection of Sheds at a short notice, may be kept in readiness at the latter place

10. The rules and regulations bearing on the subject of Inspection and Observation of passengers coming from infected parts have been read out and explained to the Police Officers and men. The Hospital Assistant also has read and understood the Circulars and rules

11. At present the Hospital Assistant on Cholera duty at Kolgihar may be directed to remove his camp to the Shed near the Toll-gate One Duffedar and 4 men have been detailed for this Special duty. They will reside in the temporary Sheds to be provided for them near the Tollgate and carry out the measures explained to them under the instructions

of the

of the Hospital Assistant
The use of forms (a) & (b)
referred to & described in
Plague Commissioners Circular
No 7 of 26th January 1898
has been fully explained
to the Hospital Assistant
and to the Police - to whom
copies of leaflets and
printed instructions have
also been furnished

12 The Bund ghat road
is the main line of com-
munication between South
Canara and this District
In fact, it is the only
road to Mangalore by
which carts laden with
coffee go from these parts
and bring back merchandise
when they return The number
of foot passengers daily
passing and repassing the
Toll gate is on the average
200 during the dry-season
The number increases con-
siderably at the commence-
ment of the monsoon -
When

When there is an unusually large influx of coolie population from South Canara for work on Coffee estates It is therefore necessary to maintain a strong guard here The Hospital Assistant on duty, will be the Inspecting Medical Officer In view of the difficult nature of work and of the expensiveness of living he may be allowed a Special Allowance of Rs 30/ per month, which is the amount allowed to other Inspecting Medical Officers on similar duty elsewhere

It is necessary to appoint a Special Jemadar for this work I would detail Jemadar Abdul Gani of the Mudgere Taluk for this duty if a substitute be allowed to take his place and an Extra Allowance of Rs 10/ be sanctioned for Abdul Gani The appointment of a Special Jemadar may however be deferred for some time

for some time At present
the Duffedar from the District
Reserve, and 4 men drawn
from the office Outposts have
been temporarily posted at
Bundghat But this arrange-
ment cannot continue for
any length of time without
serious inconvenience to other
Police work It may be
tried for a short period
Even then the men cannot
be expected to do duty at
the ghat without some
extra allowance So I would
recommend the Duffedar
and the constables for double
batta at 4as per diem

16 The Hospital Assistant
suggests the employment
of two Servants / male and
the other female — for con-
-servancy purposes at the
Camp This is a reasonable
request and may I think be
granted The maid Servant
will also be available for
inspecting female passengers
and for

and for taking care
of them at the shed
whenever their detention
may become necessary
The Potail is prepared to
supply the Servants on
payment of 3 annas per a
for a male Servant and 4 as
for a female Servant This
may be sanctioned

15 The Inspecting Medical
Officer will be put to the
necessity of providing food
& to indigent Sick persons
who might have to be detained
under observation To enable
him to buy provisions for them
and to meet other contingencies
he may be allowed an imprest
of Rs 25/- which may be
recouped from time to time
on presentation of vouchers
by him at the Taluk Cutcherry

16 The foregoing arrangements
may be sanctioned to meet the
present requirements at any
rate in connection with the
Operations

Operations at the Bandghat

Bandghat is not however the only route taken by South Canara coolies to go to the Coffee Estates in this District. There are four Ghats that passes all leading into Mudigere Taluk which have to be well guarded if it is intended to keep the infectious Element out of the District Coolies, from Bantwal and Karkal going to Sampaje - Mavinkere and other Estates near Kalasa usually take the routes via - Hallèswara and Yelsir (Sampaje) Ghats These passes lie along the Ghat line at a distance of 12 miles apart So there must be a separate guard for each Pass It is understood that unless an adequate guard is maintained at these places there is the danger of coolies resenting the action of the

Police

Phica and Jorng & their de
tination, without let or hindrance
It is therefore proposed to
Open two Strong outposts one
at Each of these passes—
Consisting of one 1st Class Duffedar
and 4 men At present
no Special medical Officer
is necessary at any of these
Passes But in suspected
cases the Hospital Assistant
at Kalsa may be directed
& take the requisite steps
towards Disinfection Segregation
and treatment of sick persons
in accordance with the Plague
Regulations

18 There are two other ghats
for which provision must be
made They are Kadadakal
or Agalghat and Sissilghat
The former pass is much
used by Coolies from Bungar
Jorng & Sampige Khan, Narasanye
and other Estates The
Coolies working on Coffee Estates
near Sampige Khan and
Durgadahalli are said to
be in the habit

on the habit of going to
Bungadi almost every day
for bringing provisions and
for the purpose of drink — the
distance between Bungadi
South Canara and the Estates on
the Mysore frontier being only
8 or 10 miles The weekly market
held in Bungadi draws together
people residing on both sides of
the ghat and it is therefore important
to see this Pass well-guarded
An outpost with one Duffadar
and 4 men may be located here

19. Sirsale ghat is near the forge
through which the River of
that name escapes into
South Canara The cartmen from
Dharmastala and other places in
South Canara going to Coffee Estates
near Devarvinda Urbage and
Bydavalli on the Mangarah
side of the Sundrapa Talook often
take this route So an
outpost may be opened here
with one Duffedar and 4 men
At Devarvinda a Jatre is
held every year on the occasion
of the

Of the Car festival of
Rameswara Devaru The Jatre
for the current year is to commence
on the 22nd March It will
last from 8 to 15 days
The Jatre is attended by people
from all parts of Mudgere
Belur and Manjarabad Talaks
and Uppinangadi Talak
South Canara. Great care
will have to be taken on this
occasion to prevent the rush of
immigrants from the infected
talks A special Hospital
Assistant may be sent for duty
during the Jatre to enforce
the rules connected with the
inspection and observation of
passengers. It seems advisable
to stop the Jatre altogether or
to close the Jatre to all outsiders

10. It only remains to consider
what other passes leading from
South Canara into the district
have to be protected There are
no other passes within the limits
of the Mudgere Taluk But
the road via Agumbe and
the pass through

the Jaws thereof Kereghat between Nemmar and Gulgangemané are commonly used by Down Shat Coolies going to Koppa Taluk If a Special Inspecting Staff is likely to be maintained at Agumbe in the Tirthalli Taluk the passengers from South Canara may be more conveniently subjected to inspection and observation there The Police at Begar Station may in that case be required to keep a vigilant watch over the passengers passing along that Ghaut under passes to be given by the Inspecting Office at Agumbe

21 A Special guard consisting of one Duffedar and four men should be placed at Kereghat. The outpost at Nemmar has been ordered to be removed to that as a temporary measure But as no Duffedar is provided for Nemmar outpost and as there are only two men at that place a Duffedar and two additional men may be Specially entertained for the work

22 The foregoing arrangements are calculated

are calculated to meet all contingencies pending as it does at a minimum cost to government, a Police cordon along the chain of Posts between Sath Canara and Kadra districts

23. Instructions have been issued to the Amildars of Koppa and Mudgere & also the outposts at the places above mentioned, with men to be drawn from other Stations and outposts in the Talukas, pending the sanction of the Inspector General of Police to Administrative Charge of Plague Preventive Measures, & the Entertainment of the proposed additional Establishment

91 A sketch map of Koppa and 29 Mudigere Talukas shewing the several Post-houses referred to in the above memorandum is attached for ready reference
